Product Reviews

As the mentor, coach, and adviser to new golfers I am often asked for my opinion about what to purchase and where. I am happy to recommend your product or facility if I have the opportunity to test it out. My opinions are honest and always from a female perspective. If you are interested in having Black Girls Golf do a product review for you, [please contact us](#).

Know Your Golf Rules – Rule Tags for your golf bag

Do you know what the red, white, and yellow stakes mean on the golf course, or

do you just ignore golf rules like I do? Do you know what you are supposed to do about an unplayable ball, or an obstruction?

EBATES WHERE IT PAYS TO SHOP ONLINE

I used cheat sheets from www.knowyourgolfrules.com. They are credit card sized tags for your bag. I was a little hesitant about using them at first. I didn't think they would be convenient, but they came in the mail with everything I needed to just hang them on my golf bag. It was very easy to take a look at the appropriate card as I was getting a new club to hit my way out of a bad lie. The rules were short, sweet, and easy to read and understand. I will not play another round without these cards.

I would definitely suggest hanging a set on your bag. Buy a few sets. One set for you, and the rest for your friends who ignore the rules. Happy golfing!
